

## RiskCredits

The increase in claims frequency in Ireland has highlighted the importance of Continuing Professional Development (CPD) for dental professionals. Although CPD is not yet mandatory in Ireland, the Dental Council's Code of Practice relating to *Professional Behaviour and Ethical Conduct* states that all dentists have an obligation to maintain and update their knowledge and skills through CPD.

Dental Protection has developed the **RiskCredits** scheme to acknowledge the benefits of CPD – focused on risk management. The idea of the scheme is to provide a discount to those members who engage with Dental Protection qualifying activities.

**RiskCredits** are awarded for risk management CPD carried out in the previous membership year. Please note you can only use CPD hours to count towards RiskCredits once and CPD must have been carried out in the previous 12 months of membership.

1. **RiskCredits** will be awarded for **every hour** of certificated risk management CPD declared from the list below of Dental Protection recognised events organised by Dental Protection or where Dental Protection has provided a speaker, online and virtual activities. A one-hour lecture from Dental Protection will equal one **RiskCredit**.

Members with no **RiskCredits** = 0% discount.

Members with between 1 and up to 7.5 **RiskCredits** = 7.5% discount

Members with 7.5 and above **RiskCredits** = 15% discount.

Please record any **RiskCredits** that you have achieved since your last renewal date. Please **DO NOT** submit CPD certificates with your submission form but be aware that you may be asked to provide proof of the declared CPD at some point during the renewal process.
