

DERMATOLOGY – COSMETIC PROCEDURES DECLARATION

The membership category for dermatologists has changed due to the poor claims experience relating to certain high risk cosmetic procedures or treatments.

If you need to apply for a review of your membership category, please sign and return this declaration if any cosmetic dermatology practice is confined solely and exclusively to the procedures and treatments listed below.

- Botox
- Collagen
- Non-permanent and semi-permanent fillers in the treatment of wrinkles and/or lip enhancement
- Microdermabrasion
- Superficial chemical peels (affecting only the intra-epidermal layer)
- IPL
- Injection of thread veins

Declaration

I declare that I do not undertake any cosmetic procedures or treatments within my practice, other than those listed above.

I understand by signing this declaration that should, in the future, any claim or other matter arise from my use of cosmetic procedures or treatments not listed on here, then the benefits of membership of MPS will not be available to me in this regard.
